

Thames Water Operations Centre

Project Data

Project: Thames Water Operations Centre

Location: Reading, England UK

Market Segment: Office

Client: Thames Water

Architect: Itineri

Blind manufacturer: Verosol NL / UK

Supplier: Light Control Systems

Brief Description: New Operation Management Building at Green Park in Reading.

Product Type and Fabric Type

Verosol Standard Pleated Blinds with Originals Fabric 809, colour 936 grey.

General Information: The development Landlords product brief was for a non mechanical fixed mechanism. The client wanted a high performance semi transparent blind fabric which was also formaldehyde and PVC free.

Main Selection Criteria

Final product selection was based on the double adhered tape mounting blind system and then the fabric performance. This followed full working mock ups on site facing south west.

Problem Definition

Non mechanical fix. Tape adhered side channels to the curtain wall window recess. The pleated blind was then mechanically fixed to the side channels.

Solution

Verosol Standard Pleated Blinds with Originals Fabric 809, colour 936 grey.
