

## PROJECT DATA

Project: Brisbane Square, Brisbane City Council Floors

Project Description: New Building construction, ground - level 24, 1550+ blinds

Architect: Cox Rayner Architects  
Interior / Project architect: Cox Rayner Architects

Blind manufacturer: Verosol Australia Pty Ltd

Supplier / installer: KWA Blinds

Products: General office areas - Mode Chain operated Roller blinds with spring assist, Fabric Semi-transparent Metallised 812 colour Dark Grey. Boardrooms - Verosol Motorised twin blackout Roller blinds with side channels, Fabric Semi-transparent Metallised 812, colour Dark Grey & Blackout Non Transparent 878 colour Dark Grey.

### Arguments in favour of choice made

- Verosol Metallised fabric was selected to provide different levels of transparency whilst maintaining a consistent exterior appearance to the building & reduce heat and glare providing occupant comfort

### Main selection criteria

- Heat and glare reduction
- Outside vision
- Reliable quality operating systems

### Problem definition

- Large office fit out with several facades receiving direct sun exposure

### Requirements of client / architect

- Verosol Metallised range of fabric as it could provide transparent, semi-transparent and non-transparent fabrics all with the same internal colour and heat and glare reducing metallised backing
- Metallised backing provides savings on air-conditioning running costs

### Solution

- General office areas - Mode Chain operated Roller blinds with spring assist, Fabric Semi-transparent Metallised 812 colour Dark Grey.
- Boardrooms - Verosol Motorised twin blackout Roller blinds with side channels, Fabric Semi-transparent Metallised 812, colour Dark Grey & Blackout Non Transparent 878 colour Dark Grey.
