Client: Brisbane City Council

Project Description: New Building construction, ground - level 24, 1550+ blinds

Architect: Cox Rayner Architects

Interior / Project architect: Cox Rayner Architects

Blind manufacturer: Verosol Australia Pty Ltd

Supplier / installer: KWA Blinds

Products: Podium levels - Verosol Motorised

Skylight Pleated blinds with guide wires,

Fabric Semi-transparent Metallised 812

colour Dark Grey

## Arguments in favour of choice made

- Verosol Metallised fabric was selected to provide different levels of transparency whilst maintaining a consistent exterior appearance to the building & reduce heat and glare providing occupant comfort

## Main selection criteria

- Heat and glare reduction
- Outside vision
- Reliable quality operating systems

## Problem definition

- Large office fit out with several facades receiving direct sun exposure

## Requirements of client / architect

- Verosol Metallised range of fabric as it could provide transparent, semi-transparent and non-transparent fabrics all with the same internal colour and heat and glare reducing metallised backing
- Metallised backing provides savings on air-conditioning running costs

## Solution

- Podium levels - Verosol Motorised Skylight Pleated blinds with guide wires, Fabric Semi-transparent Metallised 812 colour Dark Grey
